DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shawn P. Gorman on 1/7/10.

The application has been amended as follows:

Cancel claims 14-65

Replace claims 1, 11, 66, in its entirety with the following.

1. A self contained instrumented golf club, the golf club comprising:
a first accelerometer module removably mounted in a head of the golf club; and
a second accelerometer module mounted in a shaft of the golf club; and
an antenna that comprises a ferrule that connects the head of the golf club to the shaft of the golf club for transmitting swing data to a portable computer device.

11. A computer-readable medium containing computer executable instructions for causing a transmission module embedded within a golf club to perform the steps of:

receiving first golf swing data from a first accelerometer module removably mounted in a head of the golf club;

receiving second golf swing data from a second accelerometer module mounted in a shaft of the golf club; and

transmitting the first and second golf swing data to a portable computer device using an antenna that comprises a ferrule that connects a head of the golf club to a shaft of the golf club.

66. A self contained instrumented golf club, the golf club comprising:
a first accelerometer module mounted in a head of the golf club;
a second accelerometer module mounted in a shaft of the golf club; and
an antenna that comprises a ferrule that connects the head of the golf club to the shaft of the golf club for transmitting swing data to a portable computer device.

Allowable Subject Matter

Claims 1-5, 7-13, 66 are allowed.

The following is an examiner's statement of reasons for allowance:

In combination with the other limitations, prior art fails to teach the claim limitation of an antenna that comprises a ferrule that connects the head of the golf club to the shaft of the golf club for transmitting swing data to a portable computer device.

More specifically, the closest prior art, Storek (US 2004/0259651), discloses a self contained instrumented golf club (11 in Fig. 4), the golf club comprising: a first

accelerometer module mounted in a head of the golf club (Inertial Navigation System 10 in Figs. 1 and 4, paragraphs 39, 41-44, 49, 51-55, 69).; and a second accelerometer module mounted in a shaft of the golf club (Inertial Navigation System 10 in Figs. 1 and 4, paragraphs 39, 41-44, 49, 51-55, 69). Lee (US 2001/0053720) discloses that components in the head of a golf club (i.e. accelerometer board 116 in Fig. 5 that contain accelerometers 124, 126, 128 and 130; paragraph 52, 54-55) are modular and thus are easily replaceable if damaged (paragraph 57). Thus the combination of Storek and Lee discloses a golf club containing a first accelerometer module removable mounted in a head of the golf club, and a second accelerometer module mounted in a shaft of the golf club. However, Storek in view of Lee fails to teach that the golf club comprises an antenna that comprises a ferrule that connects the head of the golf club to the shaft of the golf club for transmitting swing data to a portable computer device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jasson H. Yoo whose telephone number is (571)272-5563. The examiner can normally be reached on 9:00am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dmitry Suhol can be reached on (571) 272-4430. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
